### Adelaide Anglicans and Covid vaccinations

In his charge to Synod, the Archbishop noted that:

“We have been blessed by God to have effective, safe, free vaccines against COVID-19. To willingly and knowingly reject that blessing if we can receive it, seems a puzzling thing to do. There is nothing in the Scriptures that would reasonably prevent vaccination, so I can't see any validity in a call for exemptions on the basis of religious belief. In fact, what I see in the Scriptures, especially around the command to love our neighbour and care for the needy and the vulnerable, would encourage me to say that, apart from those who for genuine medical reasons can't be vaccinated, all Christians should be vaccinated

as part of our care for those around us. With more than 75% of eligible South Australians having received a first vaccination, signs are good that we will reach the vaccination levels we need. I encourage members of the Anglican Church to get vaccinated for the good of individuals and the community.”

Synod then Resolved:

*“That this Synod endorses the Archbishop’s encouragement for all Christians to be fully vaccinated against COVID-19 for the wellbeing of all individuals and the community (unless there are medical reasons vaccination cannot be received).”*
